# OVERVIEW OF AGRITEENS

**Mundy's Mill High School in Clayton County** - the founding school where the **Agriteen Network** started is now spreading across to other local schools.

The need was great for local urban students to have access to Agricultural education and understand that there are career options in the industry.

The MMHS Greenhouse Project was an answer to the solution. Ms. Whitehead teamed up with Science Coach Professor Brown-Reid to make this a reality. The students were excited to take part in the clean up of the Greenhouse to begin planting fresh food.

Each year, the Agriteen club hosted their signature Ag, Science and Technology Fair which brought College Programs in Veterinary Science and Solar/Drone.

# THE PROJECT

To close out the project year, we partnered with Ms. Dana Harris, Exec. Director of Next Steps Youth Entrepreneur Program and completed **The Money Guide for Young Entrepreneurs Leadership Training Workshop**. Each Participant received a Certificate of Achievement for increasing value of their STEAM skills and developing their very own mission statements.
